

WAL Consulting Final Product

Will Tollefson
Anu Ghimire
Luke Klinker

What did we learn?

- A LOT....
 - PHP and SQL
 - PHPUnit
 - OpenShift and collaborative capabilities
 - Agile software process
 - Customer relations
 - Documentation

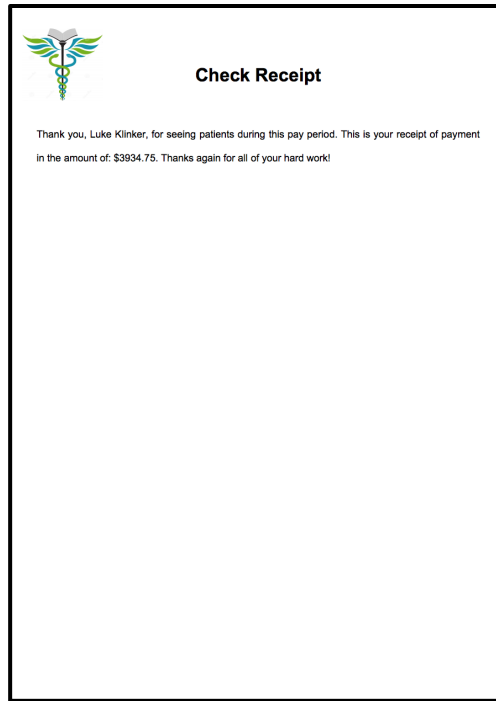

What did we like?

- Will: integration of php, html, and javascript
- Luke: twitter bootstrap
- Anu: using MySQL via Openshift

What did we not like?

- Will: initial setup
- Luke: testing framework
- Anu: pdf generator

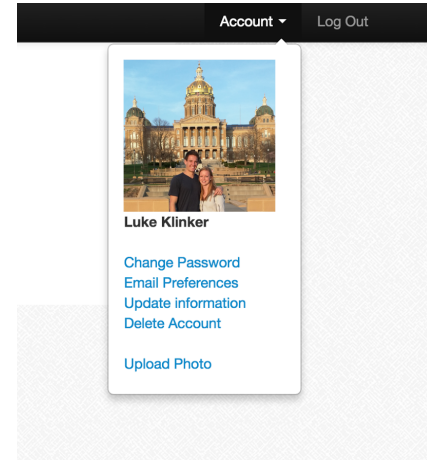

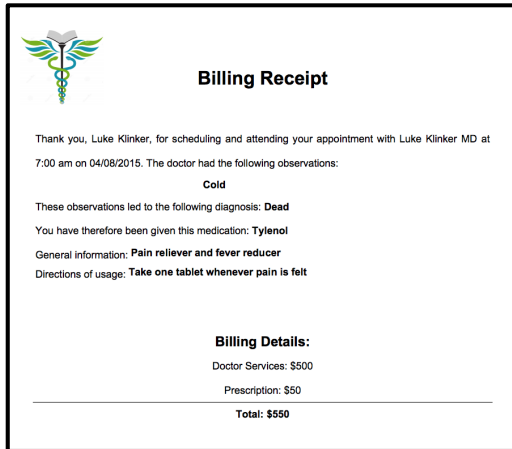

Which tools were used?

- PHP
- OpenShift
- Jenkins
- PHPMailer
- FPDF
- Amazon S3
- MySQL
- JavaScript
- Twitter Bootstrap
- PHPUnit

Special features

- PDF creation (via fpdf)
- Image uploads (via Amazon S3)
- PDF as email attachment

What would we add if we had more time?

- CSS person making GUI better
- More originality of graphical architecture
- Put logo on every page cleanly

Hospital Management
